SUMMARY

As a detail-oriented Electrical and electronics engineering graduate, I aim to find a challenging entry level position in a company which will continuously motivate and drive me to do my best and improve my skills and abilities to be able to assist the company in achieving its missions and goals.

EDUCATION

CMR INSTITUTE OF TECHNOLOGY

Bachelor's Degree in Electrical and Electronics Engineering.-8.5cgpa
2021 – 2025

ST GERMAIN PU COLLEGE

Science-pcmc-85%
2019 – 2021

SKILLS

- HTML
- CSS
- JAVASCRIPT
- JAVA
- CLOUD(AWS)
- MY SQL
- PYTHON(BASIC)
- REACTJS

LANGUAGES KNOWN

- ENGLISH
- HINDI
- KANNADA
- MARATHI

COURSE

- Full Stack Web Development – Experience with HTML, CSS, JavaScript, and Java.
- Python with AIML – Worked on machine learning models for data analysis and prediction

INTERNSHIPS

FULL STACK WEB DEVELOPMENT

Varçons Technology PVT LTD | November 2024-Jan 2025

- Developed a responsive and interactive web page using HTML, CSS, JavaScript, along with backend technologies in Java and Python.
- Acquired hands-on experience in full-stack web development, including both front-end design and back-end logic.
- Implemented user-friendly UI components and ensured cross-browser compatibility for seamless performance.

PYTHON(AIML)

Dotch Endeavours| Dec 2024 - March 2025

- Developed a machine learning model to predict Parkinson's disease using algorithms such as KNN, SVM, and others
- Performed data preprocessing, feature selection, and model evaluation to enhance model performance and accuracy
- Gained hands-on experience with machine learning techniques and working with healthcare-related datasets

PROJECTS

Vehicle road Safety System

- Designed and implemented a road safety and anti-theft system using Arduino and various sensors
- Integrated automation and embedded systems to enhance vehicle security and safety
- Applied real-time monitoring and control techniques to detect and prevent unauthorized access

Project Linksta

- Learn & Grow – Access to AI generated task
- Can Access Ai tools-resume builder,post writer etc.
- Connect & Collaborate – Network with peers and mentors.

INTEREST

Passionate about building impactful tech products that empower learning, growth, and meaningful connections
